P-150M

Portability Like No Other

Efficient scanning for Mac

The P-150M comes with convenient and easy-to-use Mac-compatible software such as CaptureOnTouch, CaptureOnTouch Lite, TWAIN driver, and third-party applications.

Sleek, compact design

A sleek, compact design allows for easy storage in confined spaces and transportation in one hand.

High-speed one-pass duplex scanning

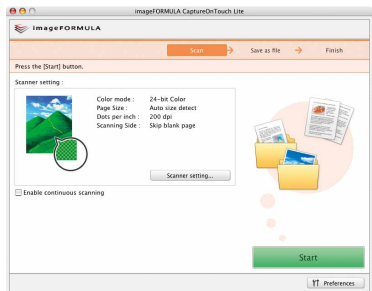

The P-150M can scan up to 15 pages/30 images* per minute using USB power. (* A4/LTR size)

Simple plug-and-scan operation

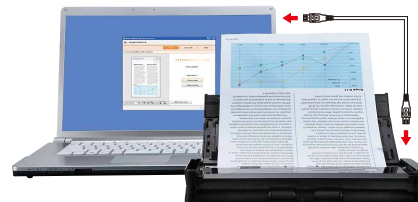

The CaptureOnTouch Lite software comes preinstalled on the scanner, eliminating the need for installation of scanning software to your computer. Simply connect to PC with USB, place the document and push the button to scan and save the document.

Plug-and-scan with CaptureOnTouch Lite

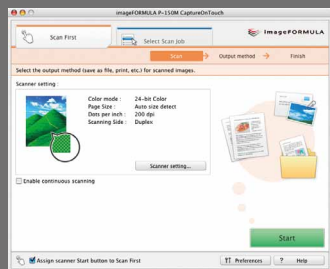

Software installation is not required; instead, the P-150M's CaptureOnTouch Lite comes embedded to achieve plug-and-scan capabilities. With the Auto Start switch on the back of the P-150M set to "On," simply connect the scanner to a PC at a USB port, the CaptureOnTouch Lite will automatically appear upon connection. The software guides you through the necessary steps to quickly go from hardcopy documents to electronic files. Before delivery of document information to the PC, utilize image processing functions of the software for optimal scan capture.

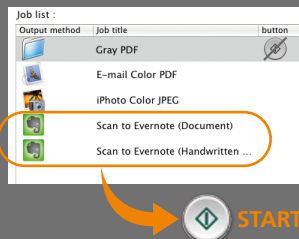

Plug & Scan

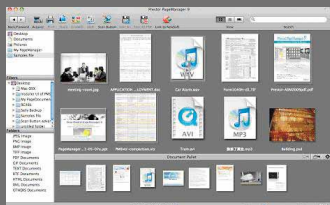

Software Included

CaptureOnTouch makes it possible for anyone to scan documents easily. The intuitive user interface lets you choose between Automatic and Job Scan Mode.

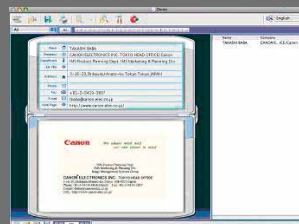

Evernote is a cloud based data management software. The preinstalled CaptureOnTouch software comes equipped with an option to send and store data (scanned images, photos, memos, etc.) to the Evernote server.

Presto! PageManager

Promptly puts your documents on the computer screen where they can be easily arranged and sorted.

Presto! BizCard

Presto! BizCard lets you scan business cards to convert and organize important contact information into a searchable database.
