Roll/Fiche Carrier 200

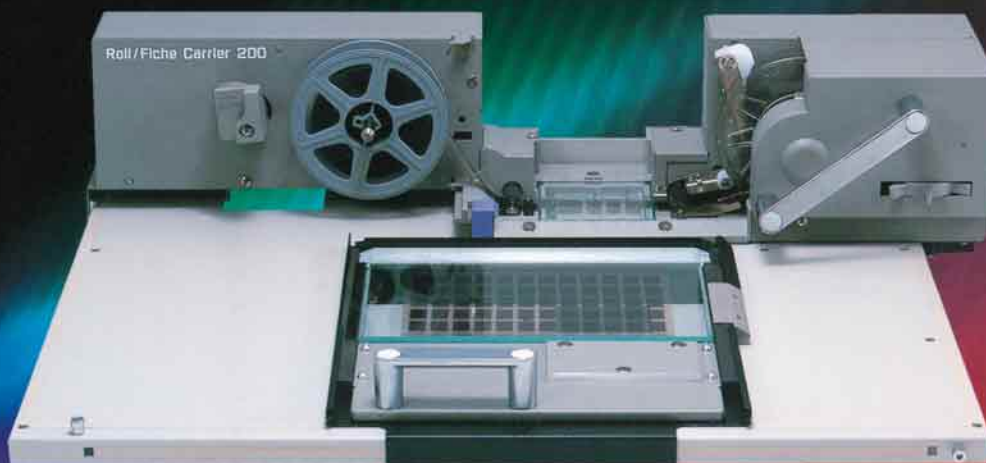

Expanded Features, Advanced Compatibility

Managing data in today's information age just got a lot easier -- Canon introduces the versatile Canon Roll / Fiche Carrier 200. Thanks to its multiple microfilm format features, the Roll / Fiche Carrier 200 provides a variety of data retrieval options. Roll films, microfiche, 3M-type cartridges and more -- all are within your grasp. The Roll / Fiche Carrier 200 is also compatible with the Canon family of multiple reader printers. The Canon Roll / Fiche Carrier 200 helps bring the information age into focus and under control.

Multiple formats with just one carrier . . .

***. . . this is Canon's efficient response to varied search and retrieval needs.
Flexible data management thanks to the Canon Roll/Fiche Carrier 200.***

Enhanced Data Access at Your Fingertips

The compact and economical Canon Roll/Fiche Carrier 200 functions as both a fiche carrier and a motorized roll carrier.

It's efficient and user-friendly -- semi-automatic loading and film format changes take no time at all.

And the Roll / Fiche Carrier 200 is compatible with Canon's reader printers.

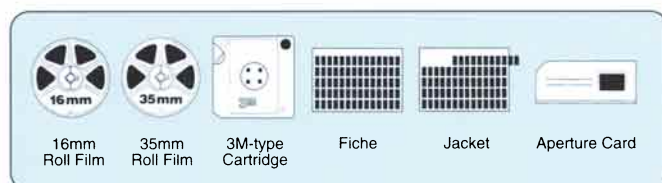

Efficient, User-Friendly, Versatile

The expanded features of the Canon Roll/Fiche Carrier 200 include semi-auto film feed, while a simple lever switch makes changing between 16 mm and 35 mm films fast and easy.

Versatile data retrieval options means users now have time-saving access to roll type films and fiche type films -- all without changing carriers. Just a quick spindle change adapts to 16 mm 3M-type cartridge films.

Compatible Performance Features

The Roll/Fiche Carrier 200 is compatible with Canon's multiple reader printers, including the MS400/500, the MP-90 and the NP-880/980. For a more flexible document management system, the Roll/Fiche Carrier 200 enhances productivity, information access, and volume search and retrieval strategies.

Quick, Convenient Data Access

The lightweight, economical Roll/Fiche Carrier 200 makes it possible to work with the film transport knob on reader printers -- there's no need for a separate controller. Users can enjoy faster rewinding in just seconds, while the Roll/Fiche Carrier 200 also accepts horizontal hold for aperture cards.

Specifications of Roll / Fiche Carrier 200

Compatible Reader - Printers	MS 400/500
	MP 90
	NP 880/980

For Roll Films

Compatible Films	
Type	16 mm Open Reel 35 mm Open Reel *also accepts metal reel 3M-type cartridge
Film Thickness	16 mm Roll Film: 2.5-5 mil 35 mm Roll Film: 4-5 mil
Leader Length	700 mm or more
Trailer Length	600 mm or more
Film Loading	Semi-Automatic
Film Rewinding Time	14 seconds
Film End Detection	Yes (Open Reel Only)

For Fiche Films

Film Loading	Manual
Compatible Films	Fiche (4 in. x 6 in.) Jacket Aperture Card

Dimensions (HxWxD)	135 mm x 540 mm x 405 mm
--------------------	--------------------------

Weight	8.5 kg
